# APSAFE 2023

Asia Pacific Society for Agricultural and Food Ethics Conference 2023

Just Transition in Regenerative Food Systems  
Under Urbanization and Climate Crisis

10 March – 11 March 2023

Nagoya JR Gate Tower & ONLINE  
(Aichi, Japan) (ZOOM)

The conference registration is  
**free of charge**

We invite you to APSAFE 2023 Nagoya to engage with just transitions of food systems in rapid urbanization, a climate emergency, and Socio-political conflicts. Our food systems face severe environmental and social impacts. Unfortunately, we do not have a panacea. Food systems pose what has been called 'wicked problems, and transdisciplinary forums are currently put forward as a promising way to tackle these problems. APSAFE is one such forum. Please use this opportunity to cultivate knowledge and understanding within a network defined by a shared commitment to addressing the largely implicit ethical challenges in our food systems!
